Research Papers

Characterization of *Staphylococcus epidermidis* mutants sensitive to ultraviolet radiation (MTR 06258)
by H. Guillobel and A.C. Leitão (Brasil) 1

Preirradiation of host cells does not alter blockage of simian virus 40 replication forks by pyrimidine dimers (MTR 06265)
by A. Scaria and H.J. Edenberg (U.S.A.) 11

DNA repair test of disinfectants by liquid rec-assay (MTR 06261)
by Y. Sakagami, K. Yamasaki, H. Yokoyama, Y. Ose and T. Sato (Japan) 21

Phenotypic heterogeneity within the first complementation group of UV-sensitive mutants of Chinese hamster cell lines (MTR 06259)
by M.Z. Zdzienicka, G.P. Van der Schans, A. Westerveld, A.A. Van Zeeland and J.W.I.M. Simons (The Netherlands) 31

Relationship between specific alkylated bases and mutations at two gene loci induced by ethylnitrosourea and diethyl sulfate in CHO cells (MTR 06260)
by M. Bignami, A. Vitelli, A. Di Muccio, M. Terlizzese, A. Calcagnile, G.A. Zapponi, P.H.M. Lohman, L. Den Engelse and E. Dogliotti (Italy, The Netherlands) 43

Repair of (6–4)photoproducts correlates with split-dose recovery in UV-irradiated normal and hypersensitive rodent cells (MTR 06254)
by D.L. Mitchell, R.M. Humphrey, G.M. Adair, L.H. Thompson and J.M. Clarkson (U.S.A.) 53

Two DNA endonuclease activities from normal human and xeroderma pigmentosum chromatin active on psoralen plus ultraviolet light treated DNA (MTR 06255)
by M.W. Lambert, D. Fenkart and M. Clarke (U.S.A.) 65

The expression of the *Escherichia coli uvrA* gene in human cells (MTR 06256)
by R. Dickstein, N.D. Huh, I. Sandlie and L. Grossman (U.S.A.) 75

UV mutagenesis in *E. coli* with excision repair initiated by *uvrABC* or *denV* gene products (MTR 06266)
R. Bockrath, M.Z. Hodes, P. Mosbaugh, K. Valerie and J.K. De Riel (U.S.A.) 87

Enhanced transforming activity of pSV2 plasmids in human cells depends upon the type of damage introduced into the plasmid (MTR 06257)
G. Spivak, S.A. Leadon, J.-M. Vos, S. Meade, P.C. Hanawalt and A.K. Ganesan (U.S.A.) 97

A Chinese hamster ovary cell line hypersensitive to ionizing radiation and deficient in repair replication (MTR 06262)
L.F. Fuller and R.B. Painter (U.S.A.) 109

Transfection of the cloned human excision repair gene *ERCC-1* to UV-sensitive CHO mutants only corrects the repair defect in complementation group-2 mutants (MTR 06267)
M. Van Duin, J.H. Janssen, J. De Wit, J.H.J. Hoeijmakers, L.H. Thompson, D. Bootsma and A. Westerveld (The Netherlands, U.S.A.) 123

Use of a dodecadeoxynucleotide to study repair of the O^4-methylthymine lesion (MTR 06268)
M.E. Dolan, M. Oplinger and A.E. Pegg (U.S.A.) 131

Six complementation groups for ionising-radiation sensitivity in Chinese hamster cells (MTR 06269)
N.J. Jones, R. Cox and J. Thacker (Great Britain) 139

Aberrant DNA repair and enhanced mutagenesis following mutagen treatment of Chinese hamster *Ade*$^-$*C* cells in a state of purine deprivation (MTR 06270)
A.R. Collins, D.T. Black and C.A. Waldren (Great Britain, U.S.A.) 145

Bleomycin and X-ray-hypersensitive Chinese hamster ovary cell mutants: Genetic analysis and cross-resistance to neocarzinostatin (MTR 06271)
C.N. Robson, A. Hall, A.L. Harris and I.D. Hickson (Great Britain) 157

Excision repair of UV damage in human fibroblasts reversibly permeabilized by lysolecithin (MTR 06263)
J.D. Lorenz, J.F. Watkins and M.J. Smerdon (U.S.A.) 167

Kinetic analysis of UV-induced incision discriminates between fibroblasts from different xeroderma pigmentosum complementation groups, XPA heterozygotes and normal individuals (MTR 06264)
S. Squires and R.T. Johnson (Great Britain) 181

0167-8817/88/$03.50 © 1988 Elsevier Science Publishers B.V. (Biomedical Division)

Review

Damage-resistant DNA synthesis in Eukaryotes (MTR 06275)
M.F. Lavin and A.L. Schroeder (Australia, U.S.A.) 193

Research Papers

The DNA-repair enzyme uracil-DNA glycosylase in the human hematopoietic system (MTR 06272)
J.A. Vilpo (Finland) 207

pH induced damage and repair in *E. coli* (MTR 06273)
J. Musarrat and M. Ahmad (India) 219

Survival and mutagenic effects of 5-azacytidine in *Escherichia coli* (MTR 06274)
D. Lal, S. Som and S. Friedman (U.S.A.) 229

Role of active oxygen species in metal-induced DNA strand breakage in human diploid fibroblasts (MTR 06276)
R.D. Snyder (U.S.A.) 237

Mutants of *Aspergillus nidulans* with increased resistance to the alkylating agent, *N*-methyl-*N'*-nitro-*N*-nitrosoguanidine (MTR 06278)
P. Hooley, S.G. Shawcross and P. Strike (Great Britain) 247

Repair of alkylation damage in the fungus *Aspergillus nidulans* (MTR 06277)
R.A. Swirski, S.G. Shawcross, B.M. Faulkner and P. Strike (Great Britain) 255

Frameshift lesions induced by oxazolopyridocarbazoles are recognized by the mismatch repair system in *Escherichia coli* (MTR 06279)
B. René, C. Auclair and C. Paoletti (France) 269
